R.P. 3.5 mileage figures estimates

The following numbers are provided as estimates of the commodity groups total mileage figures pertaining to the Commodity Flow Analysis, 1978-80, Carload All-Rail Traffic between Canada and the United States (R.P. 3.5).

They are intended to replace the actual data in the publication named above but it should be kept in mind that they are estimates rather than compiled statistics.

PREFACE

Ce document est publié comme le document de référence n° 3.5 le cinquième supplément au document de référence n° 3 de la Direction de l'exploitation et des tarifs de la Commission canadienne des transports intitulé "Analyse du Volume des Denrées, 1978-1980, Trafic entièrement ferroviaire par wagons complets entre le Canada et les Etats-Unis." Ces documents de référence complètent la série des analyses de volumes de denrées du trafic ferroviaire domestiques des années 1968 à 1980, (documents de référence n° 1 à 1.6). En combinaison, ces documents complètent une analyse du trafic canadien entièrement ferroviaire par wagon complet, national et international, tous les deux.

Depuis le commencement de ces documents de référence, le système de retrouver l'information a été développé au point où la Direction de l'exploitation et des tarifs s'apprête couramment à fournir sur demande et sur une base de recouvrement des fonds, des détails, des volumes entre les provinces canadiennes et les états américains pour chacune des 69 denrées individuelles enregistrées dans l'Avant-Propos.

L'analyse des mouvements de trafic représentés par ces documents s'étend et se détaille d'avantage. Il est espéré que ces documents de référence ouvriront la voie à la promotion d'une meilleure compréhension du trafic canadien ferroviaire et de son influence sur l'économie canadienne.

D.C. Hackston,
Directeur exécutif,
Direction de l'exploitation
et des tarifs,
Commission canadienne des transports.

PREFACE

This document is published as Reference Paper No. 3.5, the fifth supplement to Reference Paper No. 3 of the Traffic & Tariffs Branch of the Canadian Transport Commission entitled "Commodity Flow Analysis, 1978-1980, Carload All-Rail Traffic Between Canada and the United States." These Reference Papers complement the Commodity Flow Analysis series for domestic rail traffic for the years 1968 to 1980, (Reference Papers Nos. 1 through 1.6). When combined, these papers complete an analysis of Canadian carload all-rail traffic both domestic and international.

Since the inception of these Reference Papers, the information retrieval system has developed to the point where the Traffic & Tariffs Branch is currently prepared to supply, on request and at a cost recovery basis, details of traffic flows between Canadian provinces and American States for each of the 69 individual commodities listed in the Foreword.

The Traffic movements represented by these Reports is gradually expanding and becoming more detailed. It is hoped that these Reference Papers will help to promote a better understanding of Canadian railway freight traffic and its influence on the Canadian economy.

D.C. Hackston,
Executive Director,
Traffic & Tariffs Branch,
Canadian Transport Commission.

Avant-Propos

Les données qui renferme ce document de référence n° 3.5 de la Direction de l'exploitation et des tarifs de la Commission canadienne des transports ont été tirées des enregistrements mécanographiés des Chemins de fer Nationaux et du Canadien Pacifique. Le programme d'extraction des données a été conçu et préconisé par la Direction de l'exploitation et des tarifs. Les rubans ont servi à l'établissement des 96 tableaux de statistiques inclus dans ce document de référence.

Les classes suivantes des mouvements ont été exclues du programme:

- a) Trafic de détail;
- b) Messageries et chargements incomplets;
- c) Mouvements par wagons complets eau - rail et rail - eau - rail;
- d) Mouvements de containers;
- e) Remorques - rail - route;
- f) Trafic provenant du Canada à destination des États-Unis ou vice versa acheminé sur les lignes autres que celles des Chemins de fer Nationaux ou du Canadien Pacifique;
- g) Fret transporté pour les besoins de la société.

Ce document de référence, alors, comprend une analyse de trois années (1978-1980) du trafic payant par wagons complets en provenance du Canada à destination des États-Unis et du trafic provenant des États-Unis à destination du Canada. Cette analyse inclue du trafic d'importation et d'exportation acheminé des ports canadiens et américains (c'est-à-dire, jusqu'aux ou en provenance des pays autres que le Canada et les États-Unis) et inclue également un certain volume du trafic acheminé d'une origine américaine à destination d'un endroit américain par des chemins de fer canadiens pour une partie du mouvement. On estime que les données incluses dans ce document de référence comprennent approximativement 85% du total du tonnage payant en provenance du Canada et à destination des États-Unis par toutes les classes de chemin de fer, et ce, pour tous types de mouvement. Elles représentant 63% du total du tonnage payant de tout genre de trafic acheminé par toutes les classes de chemin de fer des États-Unis jusqu'au Canada. (Le trafic intermédiaire a été exclu)

Les groupes de denrées qui renferme ce document de référence sont comme suit:

- a) Produits agricoles
- b) Animaux et produits dérivés
- c) Produits miniers
- d) Produits forestiers
- e) Manufactures et produits divers

Foreword

The data set out in this Reference Paper No. 3.5 of the Traffic and Tariffs Branch of the Canadian Transport Commission was derived from the computer tape records of Canadian National Railways and CP Rail. The program for extraction of the data was designed and prescribed by the Traffic and Tariffs Branch. The resulting computer tapes were used to derive the 96 statistical tables contained in this Reference Paper.

The following types of movement were excluded from the program:

- a) Less-than-carload traffic;
- b) Express and non-carload traffic;
- c) Lake-and rail and Rail-lake-and rail carload movements;
- d) Container traffic;
- e) Piggyback Movements;
- f) Traffic originating (Canada to U.S.) and terminating (U.S. to Canada) on lines other than Canadian National and CP Rail;
- g) Freight carried on company service (O.C.S.)

This Reference Paper, therefore, consists of a three year (1978-1980) analysis of carload revenue freight traffic originating in Canada and terminating in the United States and traffic originating in the United States and terminating in Canada. This analysis includes import and export traffic from Canadian and American ports (i.e. to or from countries other than Canada and the United States) and also a small amount of traffic moving from an American origin to an American destination using Canadian railway lines on some segment of the movement. It is estimated that the data contained in this Reference Paper approximates 85% of the total revenue tonnage on all classes of railways for all types of traffic moving from Canada to the United States and 63% of the total revenue tonnage on all classes of railways for all types of traffic moving from the United States to Canada. (Overhead traffic has been excluded).

The commodity groupings used in this Reference Paper are as follows:

- a) Products of Agriculture
- b) Animals and Animal Products
- c) Products of Mines
- d) Products of Forests
- e) Manufactured and Miscellaneous Products

Les denrées principales de chaque groupe sont:

PRODUITS AGRICOLES

Blé
Autres céréales
Produits céréaliers
Pommes de terre
Autres légumes frais et congelés
Fruits, frais et congelés
Autres produits agricoles

ANIMAUX ET PRODUITS DÉRIVÉS

Bétail
Viandes fraîches et congelées
Autres viandes, poissons et conserves
comestibles
Autres produits d'origine animale

PRODUITS MINIERS

Charbon
Potasse
Soufre
Minerais et concentrés de fer (y compris
les boulettes)
Minerais et concentrés de cuivre
Minerais et concentrés de cuivre-nickel
Minerais et concentrés de plomb et de zinc
Autres minerais et concentrés
Alumine, bauxite et autres minerais
d'aluminium
Sable, gravier et pierre concassée
Gypse brut
Ciment naturel et Portland
Amiante brut
Phosphate en roche
Sel
Autres produits miniers
Coke

PRODUITS FORESTIERS

Bois de construction
Contre-plaqué
Bois à pâte
Copeaux de bois à pâte
Billes, poteaux et autres produits
forestiers

MANUFACTURES ET PRODUITS DIVERS

Fer et acier - primaires et ouvrés
Aluminium - primaire et ouvré
Cuivre - primaire et ouvré
Métaux non ferreux, n.d.s. - primaires et
ouvrés
Débris de métaux
Machines et pièces
Voitures particulières
Véhicules utilitaires
Machines agricoles et pièces
Autres véhicules automobiles
Pièces de véhicules
Essence
Mazout
Gaz de pétrole liquéfiés
Autres dérivés raffinés du pétrole
Acide sulfurique

The major commodities in each group are:

PRODUCTS OF AGRICULTURE

Wheat
Other grain
Grain Products
Potatoes
Other vegetables, fresh and frozen
Fruits, fresh and frozen
Other agricultural products

ANIMALS & ANIMAL PRODUCTS

Livestock
Meats, fresh and frozen
Other meats, fish and packing house
products (edible)
Other animal products

PRODUCTS OF MINES

Coal
Potash
Sulphur
Iron ore and concentrates (incl. pellets)
Copper ores and concentrates
Copper-nickel ores and concentrates
Lead and zinc ores and concentrates
Other ores and concentrates
Alumina, bauxite and other aluminum ores
Sand, gravel and crushed stone
Gypsum, crude
Cement, natural and Portland
Asbestos, crude
Phosphate rock
Salt
Other mine products
Coke

PRODUCTS OF FORESTS

Lumber
Plywood
Pulpwood
Pulpwood chips
Logs, poles and other forest products

MANUFACTURED & MISCELLANEOUS

Iron and steel - Primary and manufactured
Aluminum - Primary and manufactured
Copper - Primary and manufactured
Non-ferrous metals, n.e.s. - Primary and
manufactured
Scrap and waste metals
Machinery and parts
Passenger automobiles
Freight automobiles
Agricultural implements and parts
Other motor vehicles
Vehicle parts
Gasoline
Fuel Oil
Liquified petroleum gas
Other refined petroleum products
Sulphuric acid

Salignon (sulfate de soude)
 Gaz autres que de pétrole
 Autres produits chimiques et acides
 Pâte de bois
 Papier journal
 Carton, carton-pâte et carton-fibre
 Papier autres que le papier journal
 Conteneurs (autres que pour rail-route)
 Matériaux de construction
 Sucre
 Boissons
 Produits laitiers et autres produits
 alimentaires
 Aliments pour animaux et volaille
 Huiles végétales
 Produits en plastique et en cellulose
 Engrais (sauf la potasse)
 Produits ouvrés et divers
 Trafic de marchandises en commun

Les données qui renferme ce document ont été présentées dans des matrices d'origine-destination des provinces et des états. Les quatre provinces maritimes (le Nouveau Brunswick, La Nouvelle-Écosse, l'Île du Prince-Edouard et Terre-Neuve) ont été traitées comme une province unique, ce qui a réduit le nombre de «provinces» à sept comme suit:

- | | |
|--------------|-------------------------|
| 1) Maritimes | 5) Saskatchewan |
| 2) Québec | 6) Alberta |
| 3) Ontario | 7) Colombie-Britannique |
| 4) Manitoba | |

Aux fins de ce document, les États-Unis comprennent (à l'exception de Hawaii) tous les états, et en plus, le District de la Colombie. Les états ont été rassemblés dans neuf groupes principaux qui sont fondés sur notre propre analyse et celle de U.S. Census Divisions des mouvements entre le Canada et les États-Unis.

Nord Est 1 (NE1)

Maine
 New Hampshire
 Vermont
 Massachusetts
 Connecticut
 Rhode Island

Nord Central 1 (NC1)

Michigan
 Ohio

Nord Central 3 (NC3)

Minnesota
 Iowa
 Missouri
 Dakota du Sud
 Dakota du Nord
 Nebraska
 Kansas

Nord Est 2 (NE2)

New York
 New Jersey
 Pennsylvanie

Nord Central 2 (NC2)

Illinois
 Indiana
 Wisconsin

Salt cake (sodium sulphate)
 Gases other than petroleum
 Other chemicals and acids
 Woodpulp
 Newsprint paper
 Paperboard, pulpboard and fibreboard
 Paper other than newsprint
 Packaging containers (not C.O.F.C.
 containers)
 Building materials
 Sugar
 Beverages
 Dairy and other food products
 Animal and poultry feed
 Vegetable oils
 Plastic and cellulose products
 Fertilizers (excluding potash)
 Manufactured and miscellaneous goods
 Pool car traffic

Throughout the document, the data has been arranged in origin-destination matrices of provinces and states. The four Atlantic Provinces (New Brunswick, Nova Scotia, Prince Edward Island and Newfoundland) have been considered as a single 'province' reducing the number of 'provinces' to seven as follows:

- | | |
|--------------|---------------------|
| 1) Maritimes | 5) Saskatchewan |
| 2) Quebec | 6) Alberta |
| 3) Ontario | 7) British Columbia |
| 4) Manitoba | |

For the purposes of this document, the United States includes, with the exception of Hawaii, all states plus the District of Columbia. The states have been grouped into nine major groupings based on the U.S. Census Divisions and on our own examination of the traffic flow between Canada and the United States.

ORIGINES ET DESTINATIONS AMERICAINES**AMERICAN ORIGINS AND DESTINATIONS****ORIGINES ET DESTINATIONS CANADIENNES****CANADIAN ORIGINS AND DESTINATIONS**

Les 96 tableaux de statistiques sont groupés en cinq sections comme suit:

- a) **Section 1 – 12 tableaux** montrant wagons, tonnes, revenu canadien, revenu américain, tonne-milles et wagon-milles à destination de la frontière internationale dans une matrice province-état origin-destination, par groupes de denrées. Le trafic du Canada aux Etats-Unis et celui des Etats-Unis au Canada sont tous les deux représentés et ce, seulement pour l'année 1978.
- b) **Section 2 – 8 tableaux** montrant le revenu moyen par tonne (total Canada et Etats-Unis), revenu moyen par tonne (portion canadienne), déplacement moyen (jusqu'à la frontière internationale) et chargement moyen par wagon dans une matrice province-état origine-destination, par groupes de denrées. Le trafic dans les deux directions est représenté et ce, seulement pour l'année 1978.
- c) **Section 3 – 6 tableaux** présentant le trafic provenant du Canada, le trafic terminé au Canada, le trafic provenant des Etats-Unis et le trafic terminé aux Etats-Unis, par groupes de denrées, en termes de wagons, tonnes, revenu canadien, revenu américain, tonne-milles et wagon-milles à la frontière internationale avec un pourcentage de distribution par groupe de denrée, pour l'année 1978.
- d) **Section 4 – 3 tableaux** montrant la distribution du Tonnage pour le trafic acheminé du Canada aux Etats-Unis et le trafic des Etats-Unis au Canada pour tous les groupes de denrées et montrant aussi la proportion du Tonnage du Canada aux Etats-Unis contre le Tonnage des Etats-Unis au Canada pour tous les groupes de denrées pour chaque accouplement origine-destination, pour l'année 1978.
- e) **Section 5 – 3 tableaux** montrant la distribution de revenu total pour le trafic acheminé du Canada aux Etats-Unis et pour le trafic des Etats-Unis au Canada pour tous les groupes de denrées et montrant aussi le pourcentage canadien du revenu total pour chaque groupe de denrées pour chaque accouplement origine-destination, pour l'année 1978.
- f) **Section 6 – 12 tableaux** montrant wagons, tonnes, revenu canadien, revenu américain, tonne-milles et wagon-milles à destination de la frontière internationale dans une matrice province-état origine-destination, par groupes de denrées. Le trafic du Canada aux Etats-Unis et celui des Etats-Unis au Canada sont tous les deux représentés et ce, seulement pour l'année 1979.
- g) **Section 7 – 8 tableaux** montrant le revenu moyen par tonne (total Canada et Etats-Unis), revenu moyen par tonne (portion canadienne), déplacement moyen (jusqu'à la frontière internationale) et chargement moyen par wagons dans une matrice province-état origine-destination, par groupes de denrées. Le trafic dans les deux directions est représenté et ce, seulement pour l'année 1979.

The 96 statistical tables are grouped in five sections as follows:

- a) **Section 1 – 12 tables** showing cars, tons, Canadian revenue, American revenue, ton-miles and car-miles to the international boundary in a province-state origin-destination matrix, by commodity groups. Both Canada to the United States and United States to Canada traffic are represented, and are exclusively for the year 1978.
- b) **Section 2 – 8 tables** showing average revenue per ton (total Canada and U.S.), average revenue per ton (Canadian portion), average length of haul (to international boundary) and average load per car in a province-state origin-destination matrix, by commodity groups. Traffic in both directions is represented, and is exclusively for the year 1978.
- c) **Section 3 – 6 tables** showing Canada originated traffic, Canada terminated traffic, United States originated traffic and United States terminated traffic, by commodity groups, in terms of cars, tons, Canadian revenue, American revenue, ton-miles and car-miles to the international boundary with a percentage distribution by commodity group, for the year 1978.
- d) **Section 4 – 3 tables** showing the distribution of Tonnage for Canada to United States traffic and for United States to Canada traffic for all commodity groups and also showing the ratio of Canada to U.S. Tonnage versus U.S. to Canada Tonnage for all commodity groups for each origin-destination pairing, for the year 1978.
- e) **Section 5 – 3 tables** showing the distribution of Total Revenue for Canada to United States traffic and for United States to Canada traffic for all commodity groups and also showing the Canadian percentage of the Total Revenue for each commodity group for each origin-destination pairing, for the year 1978.
- f) **Section 6 – 12 tables** showing cars, tons, Canadian revenue, American revenue, ton-miles and car-miles to the international boundary in a province-state origin-destination matrix, by commodity groups. Both Canada to the United States and United States to Canada traffic are represented, and are exclusively for the year 1979.
- g) **Section 7 – 8 tables** showing average revenue per ton (total Canada and U.S.), average revenue per ton (Canadian portion), average length of haul (to international boundary) and average load per car in a province-state origin-destination matrix, by commodity groups. Traffic in both directions is represented, and is exclusively for the year 1979.

- | | |

Introduction

Ce papier document de référence n° 3.5, est une analyse du trafic payant par wagons complets (1978-1980) en provenance du Canada à destination des Etats-Unis et en provenance des Etats-Unis à destination du Canada et acheminé sur les voies des Chemins de fer Nationaux et du Canadien Pacifique.

Ce document montre que le trafic provenant du Canada à la destination des Etats-Unis était de 31.9 millions de tonnes et valait 1,465.5 millions de dollars. Le trafic provenant des Etats-Unis et terminé au Canada était de 9.8 millions de tonnes et valait 495.2 millions de dollars. En autres mots, il y avait 3.3 fois autant de trafic vers le sud que de trafic vers le nord et comprenant 3.0 fois le revenu. Le tonnage et le revenu pour le trafic vers le sud ont augmenté par 5.3% et 10.3% respectivement tandis que le tonnage et le revenu pour le trafic vers le nord ont diminués par 10.9%, et augmentés par 7.8% respectivement.

Le trafic Canada-E.U. est dominé par les trois groupes suivants de denrées; manufactures et divers — 54.3% du tonnage et 51.2% du revenu; les miniers — 30.6% du tonnage et 27.7% du revenu; et les forestiers — 14.0% du tonnage et 20.2% du revenu. Le trafic E.U.-Canada, d'autre part, est dominé par les groupes suivants de denrées; manufactures et divers 48.7% du tonnage et 60.7% du revenu; les miniers — 41.2% du tonnage et 23.8% du revenu; et les agricoles — 7.0% du tonnage et 11.3% du revenu. On peut voir en regardant ces statistiques que le trafic vers le sud, à l'exception des agricoles, est en général beaucoup plus volumineux que le trafic vers le nord, manufactures et divers inclus où la proportion du trafic vers le sud au trafic vers le nord est 3.6 contre 1.

L'information suivante démontre les rangs relatifs de chaque province et groupe d'états en exportation et en importation de trafic payant international. D'un point de vue canadien, les provinces qui sont à la tête sont Saskatchewan qui exporte le plus de produits miniers, et Ontario/Québec qui exportent le plus de produits manufacturés et divers. Ontario/Québec reçoivent 62.3% du tonnage à destination canadienne, dont la plupart se constitue de produits manufactures et divers. Aux Etats-Unis les régions les plus importantes en importation sont respectivement NC2, NC3, et NE2. NC1, NC2, NC3 et NE2 sont les régions les plus importantes en importation de produits manufactures et divers, tandis que NC2 et NC3 importent plus de produits miniers et S1 importe plus de produits forestiers. Les régions les plus importantes en exportation sont NC1, NC2, O1 et O2. Les deux premiers exportent pour la plupart les produits manufacturés et divers tandis que O1 et O2 exportent les produits miniers.

Introduction

This document, Reference Paper No. 3.5 analyses 1978-1980 carload revenue freight traffic originating in Canada and terminating in the United States and traffic originating in the United States and terminating in Canada and moving over the lines of Canadian National Railways and CP Rail.

This paper shows that 1980 Canada to United States traffic via Canadian National Railways and CP Rail amounted to 31.9 million tons and 1,465.5 million dollars while United States to Canada traffic via the same two major railways totalled 9.8 million tons and 495.2 million dollars, or 3.3 times as much southbound tons as northbound tons and 3.0 times as much revenue. Southbound tonnage and revenue decreased by 5.3% and 10.3% respectively over 1979 figures while northbound tonnage decreased by 10.9%, as revenue increased by 7.8%.

The Canada-U.S. traffic is dominated by the following three Commodity Groupings: Manufactured and Miscellaneous Products 54.3% of the tonnage and 51.2% of the revenue; Mine Products 30.6% of the tonnage and 27.7% of the revenue; and Forest Products 14.0% of the tonnage and 20.2% of the revenue. The U.S.-Canada traffic, on the other hand, is dominated by the following Commodity Groupings; Manufactured and Miscellaneous Products 48.7% of the tonnage and 60.7% of the revenue; Mine Products 41.2% of the tonnage and 23.8% of the revenue; and Products of Agriculture-7.0% of the tonnage and 11.3% of the revenue. It can be seen from the charts to follow that with the exception of Products of Agriculture the southbound traffic is generally much greater than the northbound traffic including Manufactured and Miscellaneous Products where the ratio of southbound to northbound traffic is 3.6 to 1.

The following illustrates the relative importing and exporting positions of each of the provinces and state groups in international revenue freight traffic. From a Canadian point of view, the major exporting provinces are Saskatchewan exporting Mine Products and Ontario/Quebec exporting Manufactured and Miscellaneous Products. Ontario/Quebec received 62.3% of the tonnage terminating in Canada the bulk of which is Manufactured and Miscellaneous Products. In the United States the largest importing areas are NC2, NC3 and NE2 respectively. NC1, NC2, NC3 and NE2 are the largest importers of Manufactured and Miscellaneous Products, while NC2 and NC3 import more Products of Mines and S1 is the largest importer of Forest Products. The largest exporting areas are NC1, NC2, W1 and W2. The first two export mainly Manufactured and Miscellaneous Products while W1 and W2 export mainly Products of Mines.

Les rangs des provinces et des groupes d'états en importation et en exportations sont également démontrés comme suit:

Quant au revenu, cette analyse fait voir que les deux principaux chemins de fer canadiens ont reçu 46.6% ou 683 millions de dollars de 1,465 millions de dollars reçu par ces mêmes entreprises et par les chemins de fer américains connexes pour le transport des produits du Canada aux Etats-Unis et 37.5% ou 185 millions de dollars de 495 millions de dollars touchés par ces mêmes entreprises ferroviaires pour le transport des produits des Etats-Unis au Canada. Pour la plupart des accouplements, le pourcentage canadien n'équivaut pas le pourcentage américain, ce qui explique partiellement par la proximité de la frontière internationale à la population et l'industrie canadienne.

En général, cette analyse représente une vue d'ensemble du trafic ferroviaire payant entre les provinces canadiennes et les neuf groupes d'états. On n'a pas pu produire raisonnablement en tenant compte des coûts de publication et de largeur du document les statistiques de chaque état américain et de chaque denrée individuelle enregistrée dans l'Avant-Propos. La Direction d'exploitation et de tarifs peut, pourtant, si le besoin se présente, fournir des données pour les états individuels et/ou les denrées individuelles par la méthode du recouvrement de fonds.

The import and export positions of the provinces and the state groups are further illustrated by the following:

In terms of revenue, this analysis shows that in 1980 the two major Canadian railways received 46.6% or \$683 million of the \$1,465 million received by them and connecting United States railways for the transport of goods from Canada to the United States and 37.5% or \$185 million of the \$495 million received by all such railways for the transport of goods from the United States to Canada. For most origin-destination pairs the Canadian percentage of the revenue will be less than the American percentage which can be partly explained by the proximity to the international border of the majority of the Canadian population and industry.

In general, this analysis provides an overview of rail revenue freight traffic between Canadian provinces and nine groupings of American states. It was not deemed feasible in terms of document size and publication costs to produce the statistics for each of the American states and for each of the specific commodities listed in the Foreword. However, should individual state and/or commodity information be required, the Traffic and Tariffs Branch can supply the data on request on a cost recovery basis.

Section 15

Table 94: Canada to United States Origin-Destination Matrices of Total Revenue - Total All Commodities, Products of Agriculture, Animals & Animal Products, Products of Mines, Products of Forests, Manufactured & Miscellaneous Products.

Table 95: United States to Canada Origin-Destination Matrices of Total Revenue - Total All Commodities, Products of Agriculture, Animals & Animal Pro-

Animaux et Produits Dérivés, Produits Miniers, Produits Forestiers, Produits Divers et Manufacturés.

Tableau 96:

Le Pourcentage Canadien de Revenu Total de Canada aux États-Unis et de Revenu Total des États-Unis au Canada. Toutes Denrées, Produits Agricoles, Animaux et Produits Dérivés, Produits Miniers, Produits Forestiers, Produits Divers et Manufacturés.

ucts, Products of Mines, Products of Forests, Manufactured & Miscellaneous Products.

Table 96:

Canadian Percentage of Canada to United States Total Revenue and United States to Canada Total Revenue - Total All Commodities, Products of Agriculture, Animals & Animal Products, Products of Mines, Products of Forests, Manufactured & Miscellaneous Products.

SECTION 1 – 12 tableaux montrant wagons, tonnes, revenu canadien, revenu américain, tonne-milles et wagon-milles à destination de la frontière internationale dans une matrice province-état origine-destination par groupes de denrées. Le trafic du Canada aux États-Unis et celui des États-Unis au Canada sont tous les deux représentés, pour l'année 1978.

SECTION 1 – 12 tables showing cars, tons, Canadian Revenue, American Revenue, ton-miles and car-miles to the international boundary in a province-state origin-destination matrix by commodity groups. Both Canada to United States and United States to Canada traffic are represented, for the year 1978.

SECTION 2 – 8 tableaux montrant le revenu moyen par tonne (total Canada et États-Unis), revenu moyen par tonne (portion canadienne), déplacement moyen (jusqu'à la frontière internationale) et chargement moyen par wagon dans une matrice province-état origine-destination par groupes de denrées. Le trafic dans les deux directions est représenté, pour l'année 1978.

SECTION 2 – 8 tables showing average revenue per ton (total Canada and U.S.), average revenue per ton (Canadian portion), average length of haul (to international boundary) and average load per car in a province-state origin-destination matrix by commodity groups. Traffic in both directions is represented, for the year 1978.

SECTION 4 – 3 tableaux montrant la distribution du tonnage pour le trafic acheminé du Canada aux États-Unis et le trafic des États-Unis au Canada pour tous les groupes de denrées et montrant aussi la proportion du tonnage du Canada aux États-Unis contre le tonnage des États-Unis au Canada pour tous les groupes de denrées pour chaque accouplement origine-destination, pour l'année 1978.

SECTION 4 – 3 tables showing the distribution of tonnage for Canada to United States traffic and for United States to Canada traffic for all commodity groups and also showing the ratio of Canada to U.S. tonnage versus U.S. to Canada tonnage for all commodity groups for each origin-destination pairing, for the year 1978.

SECTION 6 – 12 tableaux montrant wagons, tonnes, revenu canadien, revenu américain, tonne-milles et wagon-milles à destination de la frontière internationale dans une matrice province-état origine-destination par groupes de denrées. Le trafic du Canada aux États-Unis et celui des États-Unis au Canada sont tous les deux représentés, pour l'année 1979.

SECTION 6 – 12 tables showing cars, tons, Canadian Revenue, American Revenue, ton-miles and car-miles to the international boundary in a province-state origin-destination matrix by commodity groups. Both Canada to United States and United States to Canada traffic are represented, for the year 1979.

SECTION 7 – 8 tableaux montrant le revenu moyen par tonne (total Canada et États-Unis), revenu moyen par tonne (portion canadienne), déplacement moyen (jusqu'à la frontière internationale) et chargement moyen par wagon dans une matrice province-état origine-destination par groupes de denrées. Le trafic dans les deux directions est représenté, pour l'année 1979.

SECTION 7 – 8 tables showing average revenue per ton (total Canada and U.S.), average revenue per ton (Canadian portion), average length of haul (to international boundary) and average load per car in a province-state origin-destination matrix by commodity groups. Traffic in both directions is represented, for the year 1979.

SECTION 8 – 6 tableaux présentant le trafic provenant du Canada, le trafic terminé au Canada, le trafic provenant des États-Unis et le trafic terminé aux États-Unis par groupes de denrées en termes de wagons, tonnes, revenu canadien, revenu américain, tonne-milles et wagon-milles à la frontière internationale avec un pourcentage de distribution par groupe de denrée, pour l'année 1979.

SECTION 8 – 6 tables showing Canada originated traffic, Canada terminated traffic, United States originated traffic, United States terminated traffic by commodity groups, in terms of cars, tons, Canadian revenue, American revenue, ton-miles and car-miles to the international boundary with a percentage distribution by commodity group, for the year 1979.

SECTION 9 – 3 tableaux montrant la distribution du tonnage pour le trafic acheminé du Canada aux États-Unis et le trafic des États-Unis au Canada pour tous les groupes de denrées et montrant aussi la proportion du tonnage du Canada aux États-Unis contre le tonnage des États-Unis au Canada pour tous les groupes de denrées pour chaque accouplement origine-destination, pour l'année 1979.

SECTION 9 – 3 tables showing the distribution of tonnage for Canada to United States traffic and for United States to Canada traffic for all commodity groups and also showing the ratio of Canada to U.S. tonnage versus U.S. to Canada tonnage for all commodity groups for each origin-destination pairing, for the year 1979.

SECTION 11 – 12 tableaux montrant wagons, tonnes, revenu canadien, revenu américain, tonne-milles et wagon-milles à destination de la frontière internationale dans une matrice province-état origine-destination par groupes de denrées. Le trafic du Canada aux États-Unis et celui des États-Unis au Canada sont tous les deux représentés, pour l'année 1980.

SECTION 11 – 12 tables showing cars, tons, Canadian Revenue, American Revenue, ton-miles and car-miles to the international boundary in a province-state origin-destination matrix by commodity groups. Both Canada to United States and United States to Canada traffic are represented, for the year 1980.

CANADA TO UNITED STATES - CANADA AUX ETATS-UNIS

SECTION 12 – 8 tableaux montrant le revenu moyen par tonne (total Canada et États-Unis), revenu moyen par tonne (portion canadienne), déplacement moyen (jusqu'à la frontière internationale) et chargement moyen par wagon dans une matrice province-état origine-destination par groupes de denrées. Le trafic dans les deux directions est représenté, pour l'année 1980.

SECTION 12 – 8 tables showing average revenue per ton (total Canada and U.S.), average revenue per ton (Canadian portion), average length of haul (to international boundary) and average load per car in a province-state origin-destination matrix by commodity groups. Traffic in both directions is represented, for the year 1980.

SECTION 13 – 6 tableaux présentant le trafic provenant du Canada, le trafic terminé au Canada, le trafic provenant des États-Unis et le trafic terminé aux États-Unis par groupes de denrées en termes de wagons, tonnes, revenu canadien, revenu américain, tonne-milles et wagon-milles à la frontière internationale avec un pourcentage de distribution par groupe de denrée, pour l'année 1980.

SECTION 13 – 6 tables showing Canada originated traffic, Canada terminated traffic, United States originated traffic, United States terminated traffic by commodity groups, in terms of cars, tons, Canadian revenue, American revenue, ton-miles and car-miles to the international boundary with a percentage distribution by commodity group, for the year 1980.

SECTION 14 – 3 tableaux montrant la distribution du tonnage pour le trafic acheminé du Canada aux États-Unis et le trafic des États-Unis au Canada pour tous les groupes de denrées et montrant aussi la proportion du tonnage du Canada aux États-Unis contre le tonnage des États-Unis au Canada pour tous les groupes de denrées pour chaque accouplement origine-destination, pour l'année 1980.

SECTION 14 – 3 tables showing the distribution of tonnage for Canada to United States traffic and for United States to Canada traffic for all commodity groups and also showing the ratio of Canada to U.S. tonnage versus U.S. to Canada tonnage for all commodity groups for each origin-destination pairing, for the year 1980.
